[September 21st 2015](#)

A thuismitheoirí,

Our school have invested heavily on purchasing in the region of 2,000 graded reading books for all classes throughout the school. This gives all children enrolled in our school the opportunity to enjoy reading a variety of books at a level appropriate to their level of ability. This new reading scheme in conjunction with the class reader motivates the children to develop their literacy skills at an accelerated pace.

The school at present is endeavouring to cover all these books to preserve our investment thus ensuring that they will endure for many years to come. I want to express my sincere thanks to all parents who have covered over one thousand books already and we are extremely grateful for their selfless commitment.

In order to cover the remaining number of books we are asking each family to take 6 books which are accompanied by 6 contact covers and to return them covered to the class teacher. This will hopefully spread the work load and help get the job finished as soon as possible.

Thanks again, for your continued support, it is greatly appreciated.

Yours sincerely,

Pat Clifford (Principal)
